

JAI HIND INTERNATIONAL
STUDENT EXCHANGE PROGRAM
(JISEP)

JISEP
SUMMER 2019

JAI HIND COLLEGE
STUDENTS AT
CARLETON UNIVERSITY

In today's times, the prime focus of education is to make a student a responsible citizen with critical thinking and problem-solving abilities. It is very important to inculcate in youth a cultural sensitiveness, ability to appreciate diversity and an ability to work in any cross-cultural team. Likewise, exposure to newer teaching learning pedagogies are equally significant if education has to be holistic and relevant in the global perspective.

Keeping these goals in sight, Jai Hind College's **International Students Exchange Program (JISEP)** is an opportunity for undergraduate students to undertake variety of short professional, academic and skill-based courses at Carleton University in summer vacations in the months of May to July. This year, under the leadership of Principal Dr Ashok Wadia, the International Student Exchange Program with Carleton took off successfully with an enthusiastic response from our students. This year, in all, 19

Jai Hind College added another feather in its cap by successfully initiating a summer student exchange program with CARLETON UNIVERSITY, Canada

11 students undertook a short course on Psychology

Another 8 students opted for short courses on Business studies, Data Analytics, Entrepreneurship and Pharmacy courses

A FACULTY EXCHANGE PROGRAM IS BEING PLANNED SOON

students availed of this opportunity and have undertaken short courses at Carleton University in the months of June -July, 2019 in Humanities, Sciences and Business Studies.

Jai Hind College has hosted Carleton group of students twice since 2017 and have given them exposure to Indian Culture, Heritage, Philosophy and economy through lectures, interactive sessions and field visits. The students from Carleton have much appreciated the program offered to them at Jai Hind College and have been quite impressed with the faculty and student interactions and hospitality extended to them.

The Summer Exchange Program initiated this year under Dr. Wadia will foster even greater understanding among students from both Jai Hind College and students from Carleton University and thereby, promote greater respect for diverse cultures across.

JISEP SUMMER 2019 PROGRAM

Jai Hind College

Students at Jai Hind College got a wonderful opportunity to undertake short courses offered by **Canada -India Excellence Centre** at Carleton University. This exchange experience gives an opportunity to not only enhance our understanding in the respective field but also give us new exposure to the different cultures of the world.

Canada-India Centre Carleton University's Canada-India Centre for Excellence (CICE) was established in 2011 to help strengthen the bilateral relationship between Canada and India. In collaboration with academic and industry experts, CICE offers a suite of specialized training programs.

Some of the courses offered to Jai hind College were

BUSINESS STRATEGY

This course examines how to form effective business strategies, and the issues surrounding their implementation. This program will equip students to create high quality business strategies through the latest business insights and freshest perspectives. The Program is: 1. Offered by the

Psychology Students at Canadian Museum and in session with Prof Jordan

Canada-India Centre for Excellence and Carleton's academic Faculties; 2. 4-weeks in length, with participants selected according to selection criteria agreed upon in advance with Carleton University, and includes experiential learning via weekly industry visits.

DATA ANALYTICS

The objective of the program is to provide students with an intensive program to enhance their professional development in all aspects of data analytics. The program will provide participants with an understanding of latest trends in data analytics including tools, research topics, skills' requirements, and leading business processes.

PHARMACY

The objective of the program is to provide participants about the basics of pharmacology and toxicology and will provide insight into pharmaceutical regulatory affairs. Participants will learn about food and drug laws in Canada, the US, and Europe, and will learn how to apply international regulations. Additionally, they will learn how to apply ethical ideas to biomedical practices. This course is focused on providing knowledge into emerging biotechnology, clinical pharmacology, molecular biology, toxicology and regulatory affairs.

Psychology

A group of 11 students were flagged off for short duration course in psychology, especially requested for by Principal Dr Wadia on students' request. The program covered various aspects of theory, methods and application of Psychology in Cognitive, Social and Clinical Psychology.

Psychology Students meeting Principal, Dr Ashok Wadia and Faculty, Department of History, Dr Archana Mishra before leaving for Carleton.
